

Finding Apps

Standard search methods include

- Knowing what you want! Use the search box.

- Knowing roughly where your app is – browse by category.
- Browsing using iTunes on Mac or PC. Check the App Store pane to find what you want. You can download on the computer and transfer to the iPad later.

Use an iPad magazine such as *The Independent Guide to the iPad*, *iPhone Life* among many others. Try browsing websites listing apps such as **appsafari**, **appcraver**, **appshopper**, **148apps**, **appspace.com**
