

Navigating Around

At the bottom of the Home screen there are three buttons that can be used to navigate around your tablet. These appear on all subsequent pages that you visit so that you can always use them for navigation purposes.

The Navigation buttons are:

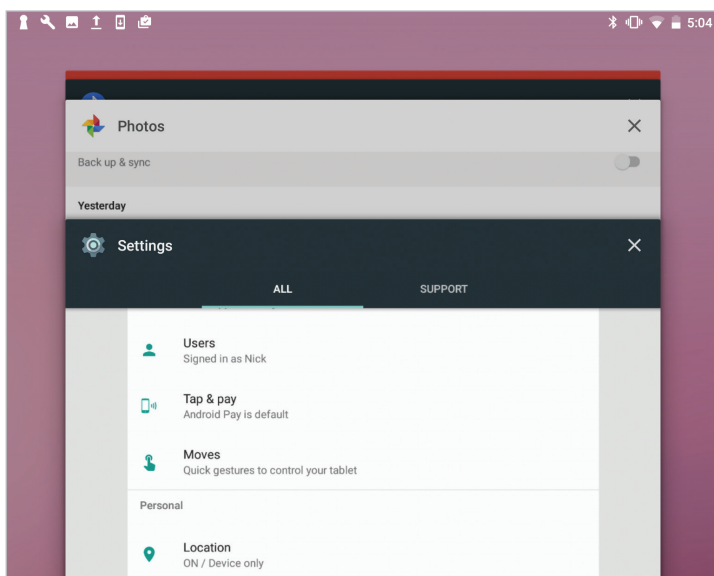

Back. Tap on this button to go back to the most recently-visited page or screen.

Home. Tap on this button to go back to the most recently-viewed Home screen at any point.

Recent Items. Tap on this to view the apps that you have used most recently. Tap on one of the apps to access it again. Swipe an app to the right to close the app, or tap on the cross in the top right-hand corner of the app.

Most Android tablets have several Home screens. Swipe left and right to move between them.

When the keyboard is being used, the Back button turns into a down-pointing arrow. Tap on this once to hide the keyboard and reveal the Back button again.
