

App Switcher Window

The App Switcher feature in iPadOS 13 performs a number of shortcuts and useful tasks:

- It shows open apps and enables you to move between these and access them by tapping once on the required item.
- It enables apps to be closed.

Accessing App Switcher

The App Switcher window can be accessed from any screen on your iPad, as follows:

Press the **Home** button once to exit the App Switcher and return to the app you were using immediately before accessing the App Switcher.

Swipe up from the bottom of the screen slightly further than the middle of the screen to return to the Home screen, rather than the App Switcher.

1 Double-click on the **Home** button, or

2 Swipe up from the bottom of any screen. This should be a long swipe, up to the middle of the screen at least. A short swipe will bring up the Dock at the bottom of the screen, rather than the App Switcher

3 Tap on an app in the App Switcher to make it the active one
