# Finding Apps

Within the App Store, apps are separated into categories according to type. To find apps in the App Store:

1 Tap once on the **Apps** button on the bottom toolbar

Apps

2 Details of the latest apps are displayed

3 Scroll down the page (by swiping up) to view the different sections. Tap once on the **See All** button to view all of the items in a section

See All

Categories

To view the different categories in the App Store:

1 Tap once on the **Apps** button on the bottom toolbar

Apps

2 Swipe up the page to the **Top Categories** section

Top Categories

AR Apps	Entertainment
Kids	Education
Productivity	Graphics & Design

3 Tap once on the **See All** button to view all of the available categories. Tap once on a category to view the apps within it

Don't forget

Some apps will differ depending on the geographical location from where you are accessing the App Store.

Hot tip

You can buy bundles of apps from some developers at a reduced price.

Don't forget

When viewing apps within a specific category, swipe up the page to view the **Top Paid** and **Top Free** apps for the category.

Don't forget

Another way to find apps is with the App Store Search button, which is located at the right of the bottom toolbar of the App Store. To use this: tap once on the Search button and

Q Search

tap

once in the Search box to bring up the iPad virtual keyboard. Enter a search keyword or phrase. Suggestions appear as you are typing. Tap once on a result to view the related app and information about it.

Beware

Do not limit yourself to just viewing the top apps. Although these are the most popular, there are also a lot of excellent apps within each category.

Top Charts
To find the top-rated apps:

**1** Tap once on the **Apps** button on the bottom toolbar

Apps

**2** Swipe up the page to view the current **Top Paid Apps** and **Top Free Apps**

3 Tap once on the **See All** button to see the full range of paid-for and free apps

See All

4 Tap once on the **All Apps** button, and tap once on a category to view the Top Paid and Top Free apps for that category
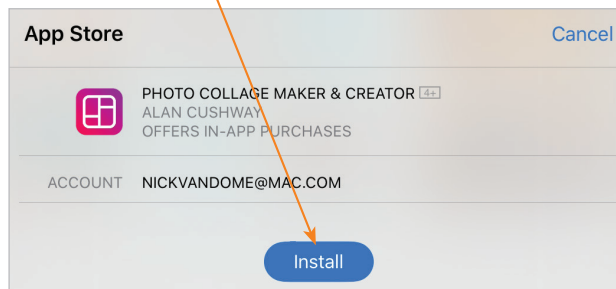

All Apps

Obtaining Apps

When you identify an app that you would like to use, it can be downloaded to your iPad. To do this:

1 Find the app you want to download, and tap once on the button next to the app (this will say **Get** or will have a price)

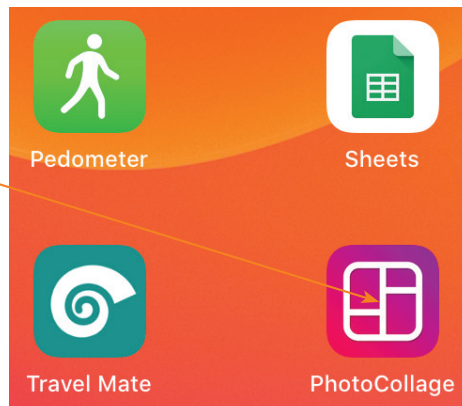

Photo Collage Maker & Creator
Picture Montage Colage Layout
GET In-App Purchases
4.8 ★★★★★   No60   4+
6K Ratings   Photo & Video   Age

2 Tap once on the **Install** button

App Store   Cancel

PHOTO COLLAGE MAKER & CREATOR 4+
ALAN CUSHWAY
OFFERS IN-APP PURCHASES

ACCOUNT   NICKVANDOME@MAC.COM

Install

3 The app will begin to download onto your iPad, indicated by this icon next to it in the App Store

4 Once the app is downloaded it will appear in the next available space on one of the Home screens. Tap once on the app to open and use it

Pedometer   Sheets
Travel Mate   PhotoCollage

Don't forget

Apps usually download in a few minutes or less, depending on the speed of your internet connection.

Beware

Some apps have "in-app purchases". This is additional content that has to be paid for when it is downloaded.
